VERVE RALLY: EXPLORE EUROPE ON WHEELS LIKE ROYALTY

Imagine a beautiful summers day with the wind in your hair, glasses perched atop your nose as you hear the sound of the V8 engines as you embark on a adventure to create memories.

The journey takes you through seven countries or across the country side of Spain to Ibiza and gives you an adrenaline rush, it gives you joy, it gives you peace. Forging new friendships you connect with like-minded people as you travel to some remarkable places in Europe, whilst indulging in the local delicacies and luxuries of a 4 and 5 star hotel.

Expect driving in a convoy for an average of four to five hours a day with a group of fun people. The rally attracts both male and female participants and we have friends, couples, siblings and colleagues joining. From the beauty of the French Riviera, to the thrill of the Autobahn, to driving through the Black Forest of Germany, to the casino in Monaco and the tranquility of the Italian lakes, the journey has something in store for everyone. And at the end of the day, you relax and enjoy a scrumptious meal with the group or head out for some dancing.

Verve Rally's indulgence of their every patron will change the way you look at road trips and at holidays.

It offers an unforgettable experience for an easy going traveller who likes the finer things in life.

The values of the rally are fun, adventure and gratitude.

In the spirit of gratitude, Verve Rally organises an annual charity gala to raise funds for charities and since its inception has been Europe's first carbon neutral rally.

" I believe it is important to give back what you take from nature and it is for this reason we calculate the miles into the engine size of the cars on the rally to come up with the carbon footprint and in turn plant trees through our partners at PATT foundation." says Darshana Ubl the female entrepreneur and cofounder of Verve Rally.

There are two routes to chooses form this year ranging from a grand tour across seven countries in nine days to Spanish escapes driving from London to Ibiza.

With all the arrangements made before hand, it's a hassle free holiday for you to travel across Europe in style — or shall we say, like royalty.
